## ERGO CURVE BIONIC SPINE-SHAPED BACK

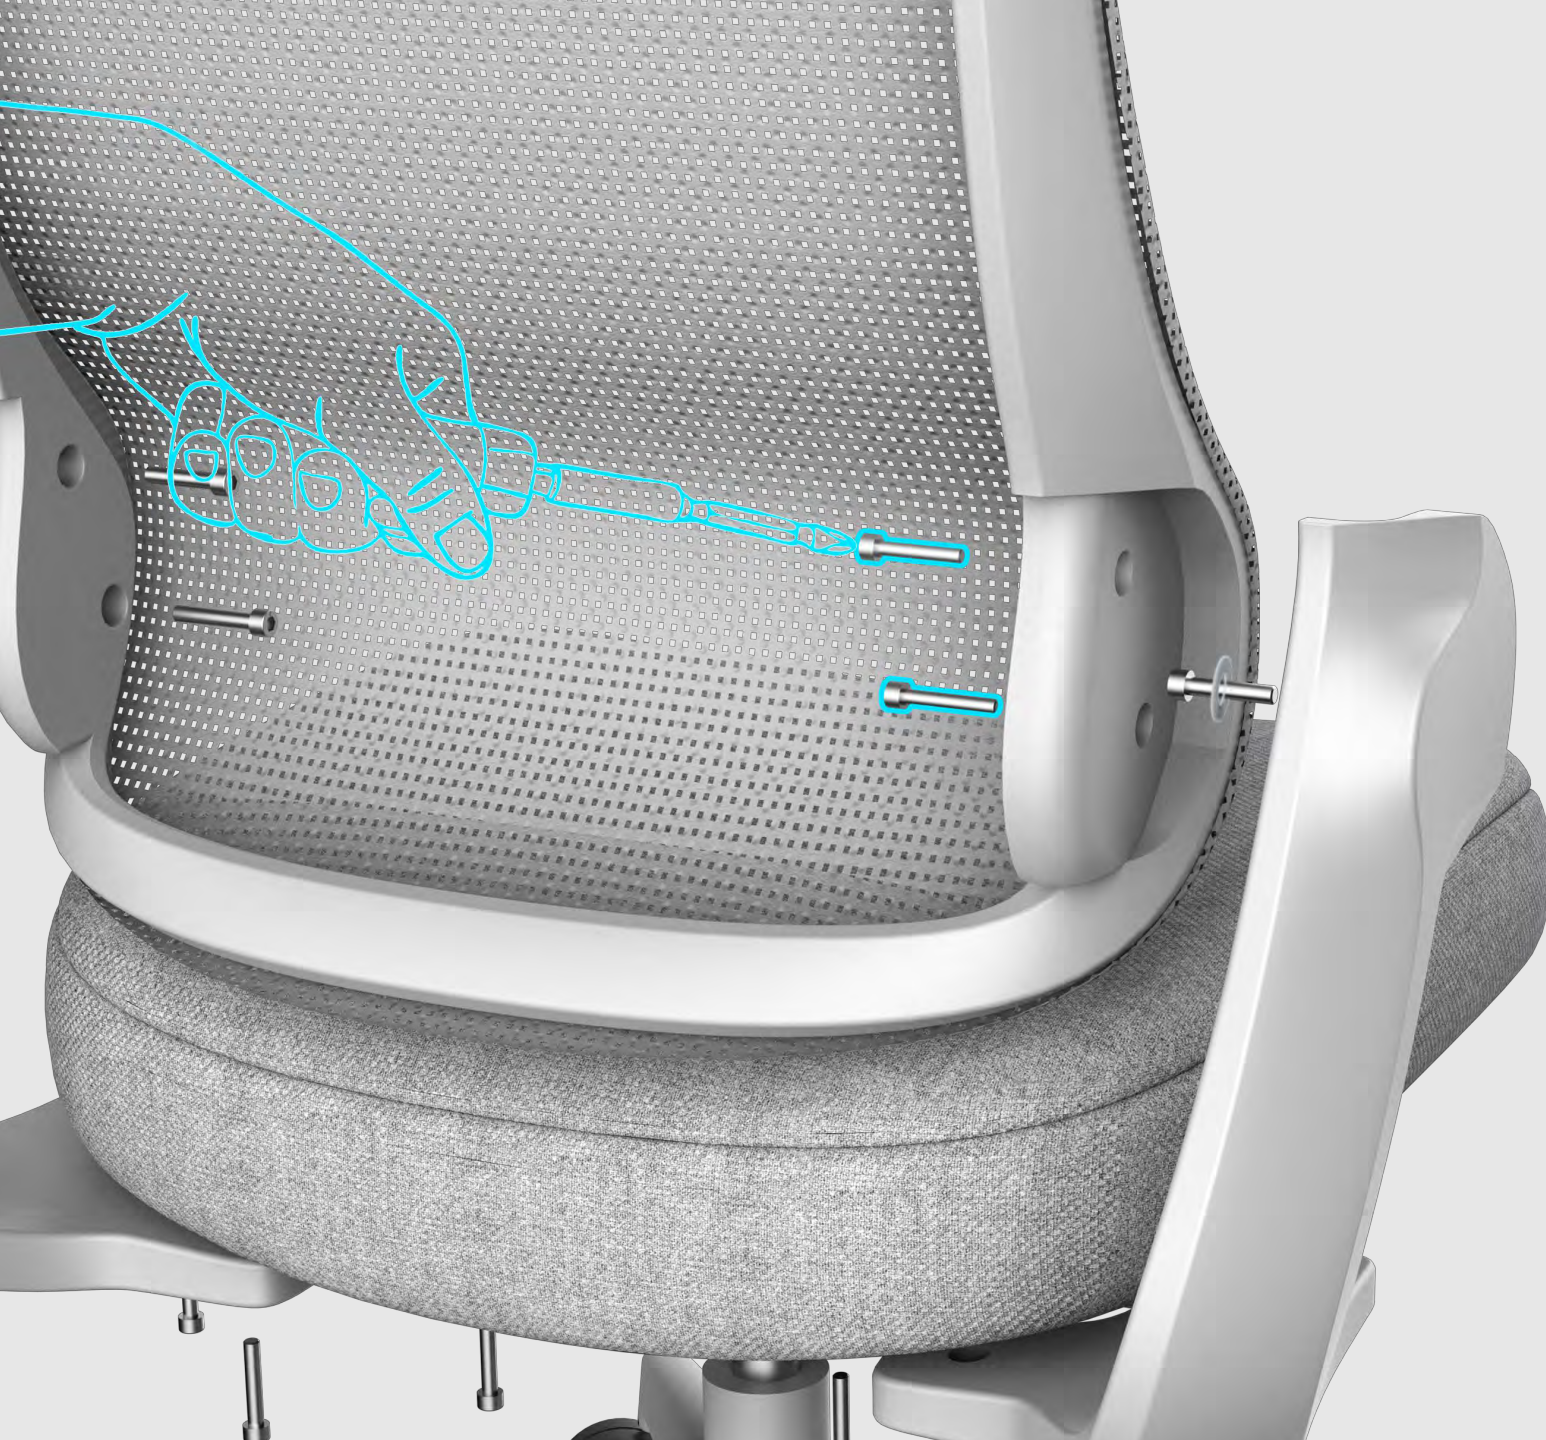

The "S" shape back matches the comfortable waist height, creating a correct healthy sitting position. Breathable mesh with cushion with high elasticity allows sitting with more comfort and untired sedentariness

## 100° FLIPPING ANGLE CONVENIENT STORAGE

Armrests can be flipped over at a large angle in order for the chair to be easily stored, so that two major needs are met in such way

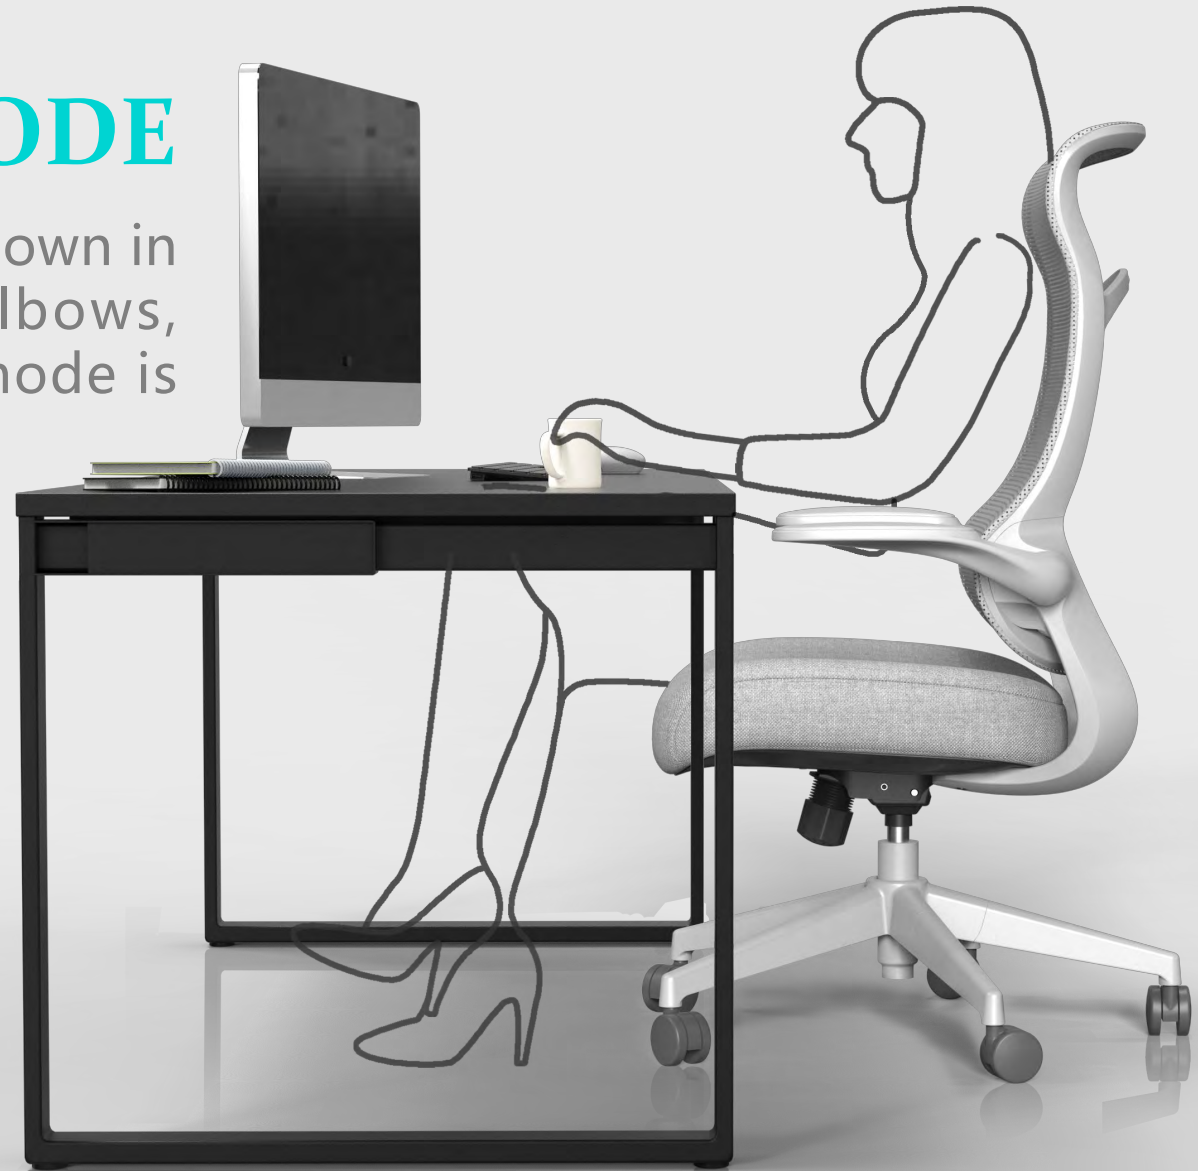

## REMOVABLE ROTATING ARMRESTS

The joints between back and armrests are fastened by screws, which can be easily taken down for disassembly

## REGULAR OFFICE MODE

Armrests' normal state is to be put down in the office. By stably supporting elbows, relaxing shoulders, good working mode is maintained

# NOT BEING USED

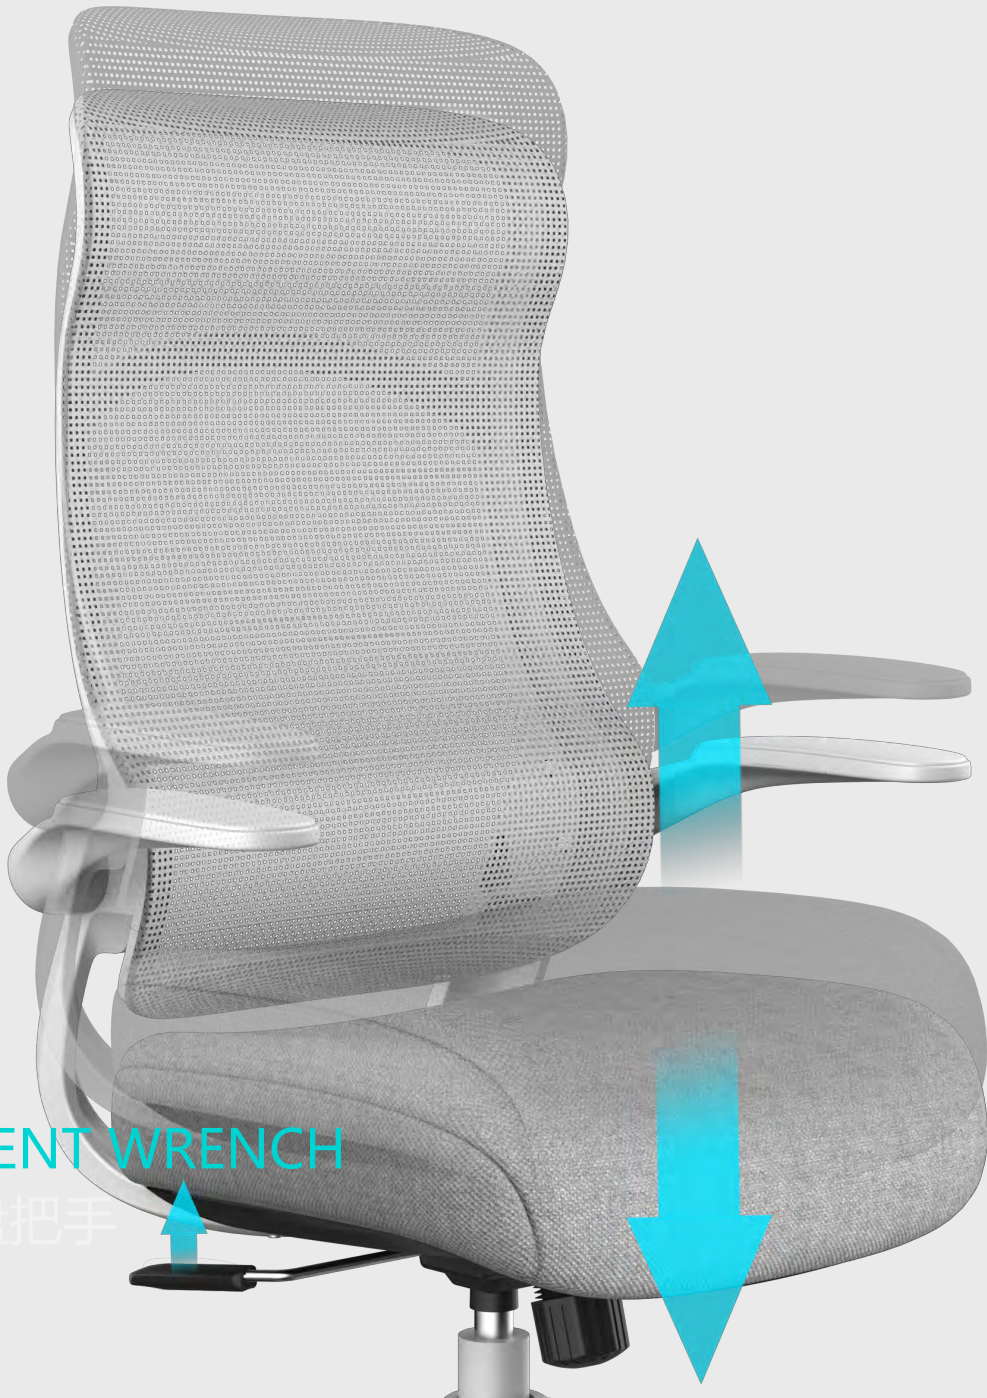

Armrests can be flipped up to let the chair be easily stored, while achieving space optimization

## EXPLOSION - PROOF CHASSIS

Improve explosion-proof performance,  
sit more secure

## SIT HEIGHT ADJUSTMENT

The lifting height of the air rod can be adjusted freely according to different lifting body types.
